

Mobilising Corporate Purpose, Magnifying Social Impact

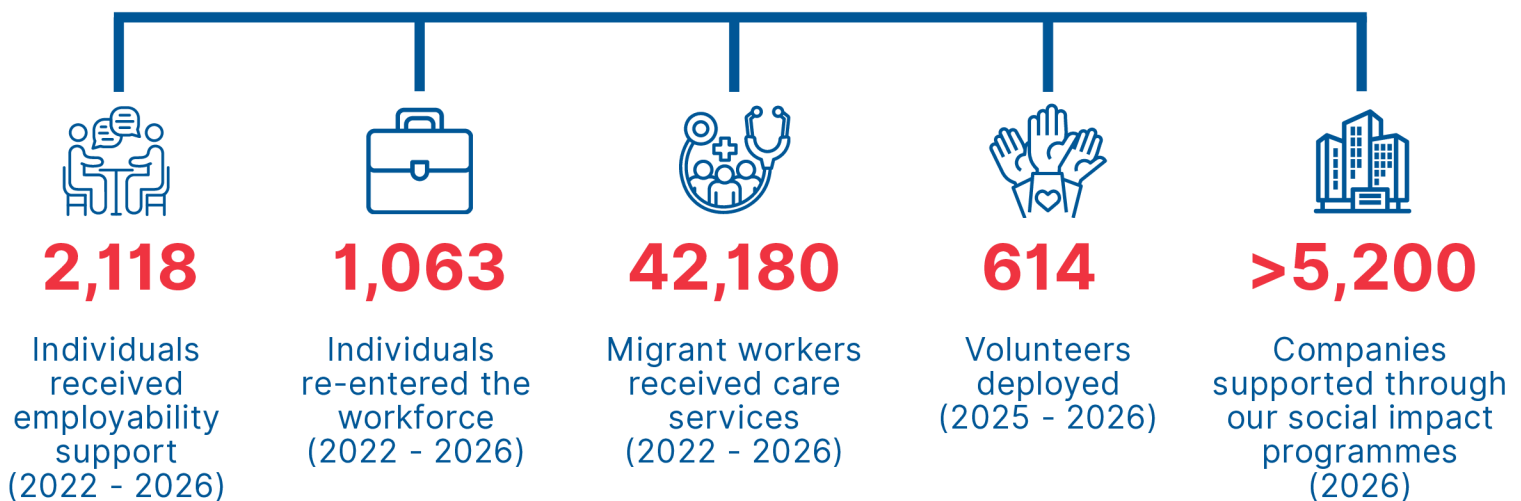

About Us - SBF Foundation

The Singapore Business Federation (SBF) Foundation is dedicated to mobilising businesses to grow their social impact and contribute meaningfully to communities.

As the social impact arm of SBF, we believe that people are at the heart of every enterprise, and that businesses hold the power to shape a more compassionate and inclusive society.

Our Impact

We welcome you to partner us in our mission to build a more inclusive, compassionate and resilient Singapore, with businesses.

Business With Purpose

In today's world, businesses are expected to go beyond profit and deliver meaningful impact across environmental, social, and economic (ESG) dimensions.

The SBF Foundation's Corporate Purpose Initiative (TCPI) rallies and supports companies to align their ESG goals with purpose-driven programmes that foster inclusive, enduring, and sustainable impact.

As a collective, TCPI's strategic donors and partners enable programmes that address systemic social challenges and foster a culture of care and compassion within Singapore's business community.

Our Programmes

EMPLOYWELL

EmployWell connects vulnerable individuals to meaningful employment by partnering with social service agencies and businesses. The programme bridges workforce gaps while helping participants overcome employment barriers through personalised coaching, targeted workshops, and job matching.

IN THEIR SHOES

In Their Shoes is an immersive workshop that helps corporate leaders understand societal issues more deeply and encourages them to advocate for compassionate workplace practices.

YOUTH CONNECTIONS

Youth Connections pairs disadvantaged youths with accomplished business leaders. By offering positive role models, it empowers youths to expand their professional networks, build confidence, and nurture career aspirations.

MIGRANTWELL

MigrantWell, funded by philanthropic business leaders, provides essential dental, mental, and rehabilitative care for migrant workers, addressing care gaps in existing healthcare plans.

COMMUNITY MARKETPLACE

Community Marketplace connects businesses with community partners to effect positive change. It enables companies to align their purpose with causes they care about through strategic partnerships.

VOLUNTEERING.

By connecting businesses with community groups, VolunteerInc. empowers employees to give back while helping companies build trust, develop talent and align with impact.

Make a Difference with Us

SBF Foundation is an IPC. All eligible donations to SBF Foundation qualify for 250% tax deduction.
