Impact Stories

The Power of Inclusive Workplaces:

A 57-year-old recovering from depression found meaningful work through EmployWell's employer partners. The supportive environment eased his recovery and financial stress, inspiring him to pursue studies in elder care.

A Second Chance at *Lavender Bakery*:

At 71, Mr N rebuilt his life after losing his business and home during COVID-19 - finding renewed purpose in a retail role at Lavender Bakery through EmployWell. Step by step, he regained stability and independence with training and support from his career coach and employer.

Since July 2022, over 1,300 individuals have received employability support and more than 800 have secured jobs, with nearly 60% remaining employed for at least six months.
